DOCUMENTING SERVICES

Using the Logging Wizard

To begin documenting your services, you will need to have all your students added to your caseload. Once the students are added to your caseload, you will use the Service Logging Wizard for your students. Any changes to a user's caseload must be completed by the districts Access Administrator.

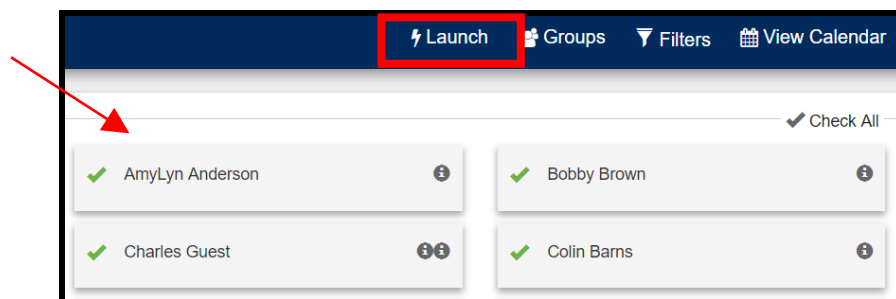

How to Document a Service Log Using the Logging Wizard

1. Login to EasyTRAC™
2. Click on the 'Wizards' tab
3. Click the Logging Wizard for the service that you provide

4. Select the student(s) you wish to document services and click 'Launch.'

Note: The students listed under **Med: No** are NOT CURRENTLY eligible for MA services. The students listed under **Med: Yes** ARE CURRENTLY eligible for MA services.

Note: If a student already on a user's caseload is not showing up in the logging wizard, the corresponding related service has not been added yet for that student. The ACCESS Administrator will need to add the related service to the students EasyTrac profile.

- Verify that you are logging a service for the correct student.

Note: The list of student(s) selected on the previous page will appear on the left side of your internet browser. The current student you are going to enter logs for will be highlighted in **Green** with all other selected students listed below.

Electronic Signatures

Electronic signatures for completed logs are accepted effective 7/1/2012 for all services rendered after 7/1/2012.

DPW will accept SBAP provider logs that are signed with an electronic signature provided the electronic signature meets the following requirements:

- Identifies the individual signing the document by his/her name and title;
- Ensures that the document cannot be altered after the signature has been affixed by limiting access to the code or key sequence;
- Provides an audit trail that validates the signer's identity.

Upon request from DPW, schools must be able to provide a hard copy of the log showing either verification of the provider's PIN/password or an actual signature. A handwritten original is not required.

Schools that use electronic signatures must have written policies and procedures in effect regarding use of electronic signatures. Electronically transmitted signatures must be electronically encrypted or transmitted by other technological means designed to protect and prevent access, alteration, manipulation or use by any unauthorized person. In addition to complying with security policies and procedures, providers who use computer keys or electronic signatures should sign a statement assuring that they alone will have access to and use the key or computer password. The policies, procedures, and statements of exclusive use must be maintained and available at the school's location.

Paper Logs

Effective July 1, 2012, providers who bill ACCESS will no longer be permitted to submit paper claims.

Paper logs that match the EasyTRAC™ logging wizards have been created for end users if requested. Each item on the paper log is mandatory. While paper logs can be completed by an end user, all finalized logs must be entered in EasyTRAC™ by that end user or the Access Coordinator/Supervisor.

All paper logs can be found on the main menu page of EasyTRAC™ and in the document library of the PA SBAP website: <https://paaccess.pcgus.com/documents.html>.
